**To all members of staff**

The Board sincerely wishes to thank all staff members for their continued commitment and dedication to ensure the people you support are being kept safe.

Sadly, not everyone has managed to stay well during this unprecedented pandemic and our thoughts go out to them, their families, friends and colleagues.

The Board is extremely impressed that, wherever it is safe to do so, you continue to come into work and give your best to the people who need you.

Thank you to you all.
